Ceejay Estabillo

Frontend Developer

Capas, Tarlac, Philippines • +63 970 186 0963 • ceejayestabillo76@gmail.com

Portfolio: portfolio-ceejay.vercel.app • GitHub: github.com/ceejaydev1

PROFESSIONAL SUMMARY

Fourth-year Bachelor of Science in Information Technology (BSIT) student and Frontend Developer dedicated to building intuitive, user-friendly interfaces through real-world project development. Experienced in React, React Native, Next.js, TypeScript, and Firebase, with hands-on work ranging from interactive diagram canvases to seamless authentication flows. Skilled in user-centered design and cross-functional collaboration. Seeking an internship or junior web developer role.

PROFESSIONAL EXPERIENCE

Full-Stack Developer

iGraphIT Capstone Project • November 2025 – Present

iGraphIT: A Progressive Web App (PWA) and mobile app for learning the Software Development Life Cycle (SDLC) and creating Unified Modeling Language (UML) diagrams. Built with React Native, Expo, Node.js, Express, and Firebase (igraphit.com).

- Developed an interactive diagram canvas using maxGraph with drag-and-drop shape insertion, supporting both desktop and mobile devices
- Built a Properties Panel system (Style, Text, and Arrange tabs) for intuitive diagram editing
- Implemented Firebase Authentication (Google Sign-In and email/password) with account linking

PROJECTS

PhotoBook • Next.js, TypeScript, Supabase, shadcn/ui • In development

- Designed and built a full-stack booking app where clients find and book photographers, videographers, and editors by service, city, and event date
- Implemented date-aware search that shows only creatives available on the chosen date, shared client/creative accounts, and light and dark themes

Personal Portfolio Website • HTML, CSS, JavaScript, Supabase • portfolio-ceejay.vercel.app

- Built a fully responsive, single-file portfolio in vanilla JavaScript with a Supabase-backed moderated testimonials wall, dark-mode transition, and certificate viewer

Inkwave • Dart, Flutter, Firebase • Android and iOS

- Designed and built a private diary app for daily writing, with entries synced across devices

EDUCATION

Bachelor of Science in Information Technology (BSIT)

Dominican College of Tarlac Inc. • Tarlac, Philippines

July 2023 – Expected Graduation April 2027 • Focus: web systems, databases, and networks

SKILLS

Languages: HTML, CSS, JavaScript, TypeScript, PHP, Python, Dart

Frameworks and Libraries: React, React Native, Expo, Next.js, Tailwind CSS, shadcn/ui, Node.js, Express, Flutter, Laravel, maxGraph

Backend and Databases: Firebase, Firebase Authentication, Supabase, PostgreSQL, MySQL, REST APIs

Tools and Other: Git, GitHub, Figma, Linux, Laragon, Networking, Progressive Web Apps (PWA), Responsive Design, User Interface (UI) Design

CERTIFICATIONS

HTML Essentials, CSS Essentials, JavaScript Essentials, and CCNA: Switching, Routing, and Wireless Essentials (Cisco Certified Network Associate), all from Cisco Networking Academy (Netacad)
